Aegis Padlock Pro
eSATA AND USB HARDWARE ENCRYPTED DRIVE

eSATA AND USB INTERFACE
Compatible with both USB and SATA connections, the Aegis Padlock Pro can support eSATA data transfer rates of up to 90MB/sec

AES 256-BIT REAL-TIME HARDWARE ENCRYPTION

BRUTE FORCE SELF DESTRUCT FEATURE
Protects from hacker attempts to enter automated PINs

VTC TECHNOLOGY
Variable timing technology for further protection against hacking attempts

WEAR RESISTANT KEYPAD

SOFTWARE FREE INSTALLATION & OPERATION
No software required…Period!

LOW POWER DESIGN
No AC adapter required

ADMINISTRATOR FEATURE
Allows enrollment of up to 10 passkeys & passkey management

COMPATIBLE WITH ANY OS
Windows®, Mac®, Linux

EXTENSIVE SHOCK MOUNTING
16-point omni-directional shock mounting system

3-YEAR WARRANTY

Works with Windows 7, Vista & XP

Mac   Universal

APRICORN

PC/Mac compatible

Aegis Padlock Pro (eSATA / USB drive)

Utilize the blazing speed of eSATA with the security of 256-bit AES Hardware Encryption with the Aegis Padlock Pro

With a software free design, secure PIN access, real-time 256-bit AES encryption and sporting a dual eSATA / USB interface, the ultra-fast Aegis Padlock Pro is the ideal drive for those that require the ultimate in security and speed.

Need to secure your data on the go? The Aegis Padlock Pro fuses hardware data protection with a speedy eSATA and USB connection. Featuring an easy-to-use keypad design and software free setup, the Aegis Padlock Pro enables you to access the drive with your own unique pin. Your data is protected 24/7 with real-time 256-bit hardware encryption, keeping your data safe even if the hard drive is removed from its enclosure.

No software installation required for setup or operation, making the Aegis Padlock Pro a stress free deployment in corporate environments. Its Administrator Feature allows enrollment of up to ten unique user ID's and one administrator, making it a useful business collaboration tool.

Ultra compatible with both eSATA and USB, the Aegis Padlock Pro can support eSATA data transfer rates of up to 90MB/sec. In cases when you can only find a USB port, the Aegis Padlock will work like a conventional USB drive, giving you ultimate flexibility.

The Padlock Pro's low powered design is perfect for using with notebooks and taking your data on the road. Bus Powered, the Padlock Pro requires a single connection when used with a Power eSATA / USB Combo port or USB port. When used with the included USB power cable, the Padlock Pro also works with Standard eSATA connections. Perfectly pocketable, the Padlock Pro's compact, robust design features a 16-point omni-directional shock mounting system, protecting the drive from drops and knocks.

With storage capacities up to 1TB* - perfect for storing photos, music and video files in addition to work documents, the Aegis Padlock Pro is the ideal hard drive to safely transport your data between work and office, or to add secure additional capacity to your system.
