

Protecting your data just got faster

Aegis Padlock with Solid State

Looking for a TOUGH way to secure your data on the go?

Based around a super resilient Solid State Drive and with no software to install, easy setup and realtime 256-bit AES encryption, the Aegis Padlock SSD is the toughest and fastest data storage solution on the market.

Aegis Padlock Pro
A25-PL256e-S128
A25-PL256e-S256

Aegis Padlock (Standard)
A25-PL256-S128
A25-PL256-S256

Send your performance through the roof

Solid State Drives are fast.... blazing fast. When used with a high speed eSATA connection, the Aegis Padlock Pro SSD can reach read speeds of up to 219 MB/sec. That's faster than any other portable drive in the industry.

Speeds	Aegis Padlock (USB)	Aegis Padlock Pro (eSATA)
Avg. Read (MB/s)	37	219.7
Avg. Write (MB/s)	27.1	161.2
Random Access (ms)	0.4	0.1
Burst Rate (MB/s)	37.7	191.7

**Data based on 256GB SSD*

Tough enough to go anywhere

Do you need to take your data into extreme environments? We know that not all job assignments or business travel takes place in air conditioned hotels. This is where the Aegis Padlock Solid State comes into its own.

- 5X Greater Life Expectancy than Premium Rotational Drives
- Works in extreme temperatures
 - Freezing temps of 40°F (4.4°C)
 - Searing temps of up to 158°F (70°C)
- Unaffected by high humidity
- Works in 95% humidity at temps under 131°F (55°C)
- Virtually shock and vibration resistant
- Rated to: Shock 1500G/0.5ms, Vibration 20G/20-2000Hz
- With no moving parts, the Aegis Padlock is completely silent
